

## Orchid 'Mediocalcar decoratum' (Orchid102)

Mediocalcar decoratum

€ 12.75

Mediocalcar decoratum is a small orchid that grows as a creeping mat of foliage that looks a bit like moss. The red-yellow flowers of Mediocalcar decoratum bloom rapidly and frequently. Read more about Mediocalcar decoratum below the photo's under 'product info' and 'plant care'.

Plant type:

flowering plant

Place:

indoor

Adult width:

10 cm

Light:

no direct sun

Watering:

normal

Araflora info

botanical

### Product info

Mediocalcar decoratum grows in trees in the Indonesian rain forest, at altitudes ranging from 900 to 2000 m. These are mountainous regions, where little sunlight reaches through the dense vegetation. The orchid stores water and nutrients in globular shaped 'reservoir' at the base of the stalk. Then from this reservoir four leaves appear, that are reminiscent of the blades of a helicopter. The small, bell-shaped flowers of Mediocalcar decoratum grow on small flower stalks.

Height:

5 cm

Width:

5 cm

Adult height:

40 cm

Adult width:

10 cm

Flower period:

all year

Product:

plant

Plant type:

flowering plant

Growth habit:

climbing

Growth habit:

epiphytical

Properties:

limited

Growth rate:

normal

Araflora info:

botanical

Natural habitat:

Australia/ New Zealand

Altitude range:

0-1000 m

## Plantcare

To optimally simulate the natural habitat of *Mediocalcar decoratum*, it is necessary to place the plant in the shadow and to maintain high humidity, like in the rain forest. This can be achieved by growing other plants in the proximity, or by placing the *Mediocalcar decoratum* on an 'island', surrounded by water. Although the orchid blooms in winter, spring and fall, it needs water throughout the year. Maintain cool temperatures between 10 to 19 degrees Celsius at night and 5 degrees higher during the day.

Care: normal		Place: indoor	
Place: artificial lighting		Light: no direct sun	
Light: semi sun		Artificial light height: 10-30cm	
Fertilize: low		Maintenance: prune dead stalks	
Watering: normal		Watering tips: free draining mixture	
Watering tips: not standing in water		Watering tips: water spraying	
Air humidity at day: 60-90%		Air humidity at night: 70-100%	
Air movement: normal		Temperature max: 30 °C	
Temperature min: 15 °C		Soil ph: < 5-7 >	
Soil type: open
