

Venus flytrap 'Dionaea muscipula 'Galaxy' starter' (CarniVFT3 Dionaea muscipula 'Galaxy' 'Starter'

€ 19.75

The *Dionaea muscipula* 'Galaxy' Starter' is the younger version of this Venus fly-trap mutant species. It is a fast-growing plant potted in its 5-centimetre container. The teeth of its traps are to some extent clustered at their growing point but will separate as the trap grows older. Probably even more spectacular are its exceptional short stalks on which grow traps in many different colours and shapes; comparable to the many types and sizes of the planets in our galaxy. Also the colours of a *Dionaea muscipula* 'Galaxy' Starter' are constantly evolving : if there is enough sunlight the traps can develop an intense red, almost purplish colour that will definitely make an impression not only on humans but also on insects.

Plant type:

carnivorous

Place:

indoor

Adult width:

10 cm

Light:

full light

Watering:

high

Araflora info

introduction

Product info

Sorry, no additional information on this Araflora plant. Additional information about this plant will become available later. The symbols below will give you some indications for this plant. We are working hard on adding valuable information as soon as possible.

Height:

1 cm

Width:

1 cm

Adult height:

5-10 cm

Adult width:

10 cm

Flower colour:

white

Flower period:

Jan-July

Temperature winter:

5°C

Product:

plant

Plant type:

carnivorous

Growth habit:

normal

Properties:

limited

Growth rate:

slow

Plantcare

No plantcare information of Araflora available. The plantcare symbols below will give you an indication about the product. We hope to have text available soon.

Care:
normal

Place:
indoor

Place:
container plant

Place:
artificial lighting

Light:
full light

Artificial light height:
0-20cm

Fertilize:
none

Maintenance:
prune dead stalks

Watering:
high

Watering tips:
standing in water

Watering tips:
no-water spraying

Air humidity at day:
60-100%

Air humidity at night:
80-100%

Air movement:
normal

Day temperature
15-25°C

Night temperature
10-20°C

Temperature max:
30°C

Temperature min:
10°C

Soil type:
peat

Repotting:
after 2 years
