

Venus flytrap 'Dionaea muscipula' 'B-52' (CarniVFT06a)

Dionaea muscipula 'B-52' starter

€ 8.12

The Dionaea muscipula 'B-52' is a beautiful and popular Venus flytrap, growing big bright green traps. These traps have a deep red inside, which is very attractive to all kinds of insects taking a peek near this carnivorous plant. The Dionaea muscipula 'B-52' is a Venus fly-trap with some of the largest known traps. From its strong, long leaves grow large, bright-green traps of some 7 centimetres long. The traps of the Dionaea muscipula 'B-52' are deep-red on the inside tempting all sorts of insects that have come to take a look. The Dionaea muscipula 'B-52' is easy-to-grow on a window-sill, in a greenhouse or outside in a very sunny spot but do always make sure the soil is permanently moist.
