40 cm

Adult width:

10 cm

Flower period:

all year

Product:

plant

Plant type:

flowering plant

Growth habit:

climbing

Growth habit:

epiphytical

Properties:

limited

Growth rate:

normal

Araflora info:

mini

Natural habitat:

South America

Altitude range:

0-1000 m

## Plantcare

Place *Stelis* species A Costa Rica on a backwall if possible. Fern root is optimal, as it retains a lot of moisture. Regular watering (with soft water) is recommended, extra fertilization is not immediately required. This orchid is also well-suited for an epiphyte branch. Ensure the roots don't dry out: use *Sphagnum* for this. Provide *Stelis* species A with sufficient light.

Care:  
easy

Place:  
indoor

Place:  
artificial lighting

Light:  
no direct sun

Light:  
semi sun

Fertilize:  
medium

Maintenance:  
can be pruned

Watering:  
normal
