Orchid 'Stelis species a 'Costa Rica'' (Orchid165)
Stelis species a 'Costa Rica'

€ 10.33

Stelis species a ‘Costa Rica’ is a real treasure for in your tropical terrarium or paludarium. Due to its small size, elegant leaves and enamoring inflorescence, orchid species Stelis species A is a sight to see. This orchid doesn’t require a lot of space, which makes it very suitable for a small terrarium.

**Plant type:** flowering plant  
**Place:** indoor

**Growth rate:** normal  
**Natural habitat:** South America

**Width:** 5 cm  
**Adult width:** 10 cm  
**Product:** plant  
**Growth habit:** climbing  
**Properties:** limited  
**Araflora info:** mini  
**Altitude range:** 0-1000 m
Plantcare

Place Stelis species A Costa Rica on a backwall if possible. Fern root is optimal, as it retains a lot of moisture. Regular watering (with soft water) is recommended, extra fertilization is not immediately required. This orchid is also well-suited for a epiphyte branch. Ensure the roots don't dry out: use Sphagnum for this. Provide Stelis species A with sufficient light.
