

Begonia partita 'S' (Begonia15)

Begonia partita 'S';

€ 10.15

Begonia partita 'S' =B. dregei var. Partita' is a special kind of Begonia with a pretty leaf. This Begonia can survive short spans of time without water due to its thickened trunk or caudex. In the Begonia partita it functions as a storage for water. This exotic plant does well in a terrarium or as a house plant.

Plant type:

evergreen

foliage plant

Place:

indoor

Adult width:

Light:

no direct sun

Watering:

normal

Product info

Begonia partita 'S' originates in South Africa. The small maple-like leaves are very appealing. The plant's appearance is reminiscent of a bonsai tree. When placing it in a terrarium the bonsai shape is lost, because this plant is not easily pruned. Furthermore this begonia grows with shorter stalks at higher humidities.

Height:
15 cm

Width:
1 cm

Flower colour:
purple/white

Flower period:
all year

Product:
plant

Plant type:
foliage plant

evergreen

Plant type:
terrarium

Natural habitat:
South America

Altitude range:
500-1000 m

Plantcare

This African Begonia partita 'S' likes warmth and high humidity. When watering one needs not worry too much about keeping the soil slightly moist like with other Begonias; the caudex and thickened leaf stalks will store the water anyway.

Care:
easy

Place:
indoor

Light:
no direct sun

Light:
semi sun

Protection:
protect against rainfall

Fertilize:
little

Maintenance:
no-pruning

Watering:
normal
