

Begonia species 'Hanging' (Begonia19)

Begonia species 'Hanging'

€ 10.03

Begonia ?species hanging' has been in the Araflora collection for years and is originally found in Latin America. It has regrettably not produced any flowers, so we haven'T been able to give it a botanical name yet. We like it because it is and it keeps small

Plant type:

flowering plant

Place:

indoor

Adult width:

Light:

semi sun

Watering:

normal

Araflora info

limited

Product info

Begonia ?species hanging? is a room or terrarium plant that can be pruned easily. It does well under high humidity and moderate temperatures. As a house plant it must be watered properly, though the soil must be allowed to dry again between watering sessions. The use of lukewarm water is recommended.
