Plantcare

The *Syngonanthus chrysanthus* 'Mikado' likes a light spot and if kept sufficiently moist, it can tolerate direct sun. The potting soil must always stay moist and that is best realised by watering from below. High humidity is conducive to the good growth of the *Syngonanthus chrysanthus* 'Mikado'. The maximum temperature for this Brazilian species is 12° Celsius [53.6°F], but ideal is an ambient temperature of 18° Celsius [64.4°F] to 30° Celsius [86°F]. The *Syngonanthus chrysanthus* 'Mikado' thrives in a small container filled with light, permeable potting soil. Be careful with the amount of fertilizer you use, the *Syngonanthus chrysanthus* 'Mikado' is very quickly given too much. Do take a look at the substrates Araflora has for sale.
