Biophytum sensitivum (Terra3)

Biophytum sensitivum

€ 7.97

A nice plant which responds to touch like the Mimosa Pudica. This miniature palm-like plant grows to a height of some 10 to 15 cm and its leaves close in as a response to touch, or at nighttime. It resembles a mini palm tree because the leaves are in a crown on top of a wood-like stem. It is an easy plant to cultivate not needing much light and certainly not direct sunlight. It does well at room temperature and its soil should be kept moist. The seeds germinate easily on moist soil.

Plantcare

No plantcare information of Araflora available. The plantcare symbols below will give you an indication about the product. We hope to have text available soon.

Care:
normal

Place:
indoor

Place:
artificial lighting

Light:
semi sun

Artificial light height:
30-60 cm

Protection:
not standing in water

Fertilize:
little

Watering:
normal

Watering tips:
free draining mixture

Air humidity at day:
60-90%

Air humidity at night:
70-100%

Air movement:
large

Day temperature
15-30 °C

Night temperature
15-25 °C

Temperature max:
35 °C

Temperature min:
10 °C

Soil ph:
< 5-7>

Soil type:
peat

Repotting:
every year
