### Product info

The Canistropsis billbergioides cv citron is a colour variant of the exotic bromelia Canistropsis billbergioides. This plant is native to Brasil. The Canistropsis billbergioides cv citron is perfectly suited to be kept as a container plant, since it will stay small in size with its colouring a striking yellow. In Brasil it grows as an epiphyte on top of other plants, but in a container this plant will also thrive. Taking care of the Canistropsis billbergioides cv citron is not difficult, therefore it is an ideal plant to keep in the home.

Natural habitat:

South America

Altitude range:

500-1500 m

## Plantcare

The *Canistropsis billbergioides* cv citron likes a place in the shade; it does not grow well if its surroundings are too sunny. Direct sunlight should be avoided. This exotic plant is not proof against temperatures below 2°Celsius [35.6°F], but for the rest it does well at all normal temperatures in the home or on a terrace or balcony. The soil can be really moist, but stagnant water near the roots should be avoided. It is best if the soil of the *Canistropsis billbergioides* cv citron is properly permeable and consists partly of peat. Araflora also has other colour variants of this species for sale.
