

Bromeliad 'Guzmania x Theresa' (Brom57)

€ 7.00

This colourful dwarf bromeliad is a great plant for anyone who loves bromeliads or is planning to start in bromeliads. It's even a success as a terrarium plant. The flower is a real eyecatcher because of the warm red and deep yellow colours that come closest to a mango.

Product info

Guzmania x 'Theresa' lives as an epiphyte in Central America and the Caribbean. This plant collects rainwater through the leaves, which form a tube. Other organisms such as poison frogs or insects often live in the tube. The rainwater is immediately absorbed by the leaves. The roots of Guzmania x 'Theresa' have only one function which is to attach themselves to branches or rocks. After the plant has blossomed, new shoots form, which bloom again the following year, while the mother plant dies.

Height: 15 cm		Width: 10 cm	
Adult height: 60 cm		Adult width: 40 cm	
Flower period: Jan-Feb		Temperature winter: 10°C	
Product: plant		Plant type: flowering plant	
Plant type: terrarium		Growth habit: normal	
Properties: non-edible		Growth rate: normal	
Araflora info: import		Natural habitat: Amazon	
Altitude range: 0-1000 m			

Plantcare

It is important to water the plants in the tube. The tube can contain water at all times. It is important that the roots are in an airy soil of e.g. bark or tied to a branch with some spagnum moss. The latter is ideal for use in a terrarium. When the roots remain permanently wet, they rot. Guzmania x 'Theresa' prefers indirect sunlight but become more beautiful when they are in a lighter area because they can produce more pigment.

Care: easy		Place: indoor	
Place: container plant		Light: semi sun	
Artificial light height: 10-20 cm		Protection: water spraying	
Fertilize: none		Maintenance: prune dead stalks	
Watering: normal		Watering tips: free draining mixture	
Watering tips: watering from above		Watering tips: not standing in water	
Soil type: terrarium		Air humidity at day: 60-80%	
Air humidity at night: 70-90%		Air movement: normal	
Day temperature 15-25°C		Night temperature 5-20°C	
Temperature max: 30°C		Temperature min: 10°C	
Soil ph: < 4-6>		Soil type: peat	
Repotting: after 1 year
