

Antplant 'Dischidia astephana' (Antp01c)

Dischidia astephana

€ 43.19

Dischidia astephana is a real must for all plant enthusiasts. This Dischidia astephana ant plant is Arafloras favorites because of its striking bloom and beautiful creeping leaves. In nature it grows on trees in Asia. It thanks its name to the fact that its leaves provide ants with shelter and protection. It is a relatively slow grower which likes a luminous spot and dry soil.

Plantcare

This *Dischidia astephana* ant plant grows especially well directly under the lamps. The *Dischidia astephana* can attach itself to wood and other dry materials. As long as the roots of the *Dischidia astephana* aren't in water and the plant receives lots of light it is easy to keep. The *Dischidia astephana* produces many branches and leaves and multiplies with new offshoots above ground.
