

Venus flytrap *Dionaea muscipula* 'Australian cup'; starter (CarniVFT95a)

Dionaea muscipula 'Australian Cup'; 'Starter'

€ 7.20

The *Dionaea muscipula* 'Australian Cup' 'Starter', a Venus fly-trap mutant which was given to Araflora by a kind grower from the Netherlands. The *Dionaea muscipula* 'Australian Cup' 'Starter' is a small, finely-rooted carnivorous plant potted in a 5-centimetre container. The *Dionaea muscipula* 'Australian Cup' 'Starter' has beautiful long stalks, which can ultimately reach a length of about 7 centimetres and from which unconventional traps will grow. The traps of this carnivorous plant may be 2-3 centimetres in length. The traps are in the shape of a crab-shell with long, sometimes entangled teeth growing from the 'shell'. The leaves and traps of the *Dionaea muscipula* 'Australian Cup' 'Starter' are mainly green and will develop best in a sunny spot on your window-sill or in your greenhouse.

Plant type:

carnivorous

Place:

indoor
