

## Venus flytrap 'Green dog' (Carnivorous plant)

€ 7.61

The *Dionaea muscipula* 'Green dog' owes its name to its traps that slightly resemble a grinning dog: this is due to the fact that its teeth have melted together. The *Dionaea muscipula* 'Green dog' has a bright-green colour with traps that can change to a very light red when exposed to plenty of light. Place the *Dionaea muscipula* 'Green dog' in a light spot and keep its soil permanently moist: in this way the Venus fly-trap will develop fully.

Plant type:

carnivorous

Place:

indoor

Adult width:

10 cm

Light:

full light

Watering:

high

Araflora info

non-edible

### Product info

Sorry, no additional information on this Araflora plant. Additional information about this plant will become available later. The symbols below will give you some indications for this plant. We are working hard on adding valuable information as soon as possible.

Height:

1 cm

Width:

1 cm

Adult height:

5-10 cm

Adult width:

10 cm

Flower colour:

white

Flower period:

Jan-July

Temperature winter:

5°C

Product:

plant

Plant type:

carnivorous

Growth habit:

normal

Properties:

limited

Growth rate:

slow

Araflora info:

non-edible
