

## Venus flytrap 'Dionaea muscipula 'Spotify' (CarniVFT202)

Dionaea muscipula 'Spotify'

€ 0.00

Some Venus flytraps are green, others are red. *Dionaea muscipula* Spotify is the ideal choice for anyone looking for a combination of the two. It is an impressive sight. The leaf lobes of its traps have a green base interspersed with patches of red, creating the impression that a deathly struggle has taken place. With its mottled combination of colours, *Dionaea muscipula* 'Spotify' is a visual delight.

Plant type:

carnivorous

Place:

indoor

Adult width:

4 cm

Light:

full light

Watering:

high

Araflora info

non-edible

### Product info

The leaf traps of *Dionaea muscipula* 'Spotify' have glands that produce scented nectar with which the plant lures its prey. If the prey struggles, the hinged lobes snap shut and the trap closes even tighter. The more prey *Dionaea muscipula* 'Spotify' consumes, the greater the number of leaf traps it produces.

Height:

1 cm

Width:

1 cm

limited

## Plantcare

*Dionaea muscipula* 'Spotify' thrives in a wet environment, preferably in direct sunlight. As a rule, Venus flytraps do not require plant food as they feed on the insects they catch. The growing medium must be kept wet using rainwater, distilled water, osmosis water, boiled water or demineralised water.
