

## Anthurium polyschistum (Ariods16)

Anthurium polyschistum

€ 17.75

Anthurium polyschistum is an Anthurium species with a split leaf shaped like that of a hemp plant, although of course there are no 'family ties'. The Anthurium polyschistum is an easy species that can be used as a houseplant or as a terrarium plant. This Anthurium species can easily be used for plant cuttings. The inflorescence and the bract of the Anthurium polyschistum are both green.

Plant type:
