

Anthurium trinerve (Ariods154)

Anthurium trinerve

€ 21.75

Anthurium trinerve is an Anthurium species with elongated leaves and a inflorescence consisting of a flower with a striking colored bract. Particularly the spadix of the Anthurium wendlinger is very special: long and spiral-shaped curly. In the young inflorescence the spadix is still straight.

Plant type:

evergreen

foliage plant

Place:

indoor

limited

Natural habitat:

Amazon

Altitude range:

0-1500 m

Plantcare

Anthurium obtusum, sometimes synonymous to Anthurium trinerve, is an Anthurium with rather leather-like oval leaves. It is a shrublike Anthurium that can grow outside in warmer climates, but in north-west Europe it prefers a place inside. Anthurium obtusum is suitable as terrarium plant and as a houseplant.

Care:
easy

Place:
artificial lighting

Light:
semi sun

Fertilize:
medium

Soil type:
terrarium

Air humidity at night:
80-100%

Day temperature
10-30 °C

Temperature max:
30 °C

Soil ph:
<5-8>

Place:
indoor
