### Product info

Sorry, no additional information on this Araflora plant. Additional information about this plant will become available later. The symbols below will give you some indications for this plant. We are working hard on adding valuable information as soon as possible.

Height:

20 cm

Width:

8 cm

Adult height:

>80 cm

Flower colour:

white

Flower period:

all year

Product:

plant

Plant type:

foliage plant

Growth habit:

normal

Properties:

non-edible

Growth rate:

slow

Araflora info:

botanical

Natural habitat:

South-East Asia

Altitude range:

0-1500 m

## Plantcare

The elephant ear likes a bright spot, but can also grow in a partially shady spot. Direct sunlight doesn't benefit this type, as it will soon become too warm which can damage the leaves. Alocasia x calidora likes a moist soil and its roots should not dry out. So, water it regularly, for example with a dish under the pot. Mist the plant regularly to ensure higher humidity. In winter the plant absorbs less water. Keep the ambient temperature below 20 degrees Celsius. The soil must retain moisture and can be rich in nutrients. In the growth period the plant can be given nutrients once every two weeks to accelerate the growth. Araflora offers a variety of soil mixtures which are perfect for Alocasia.

Care:  
very easy

Place:  
indoor

Place:  
artificial lighting

Light:  
no direct sun

Light:  
semi sun

Artificial light height:  
20-40 cm

Fertilize:  
little

Maintenance:  
no-pruning

Watering:  
normal

Watering tips:  
free draining mixture

Air humidity at day:  
80-100%

Air humidity at night:  
60-80%

Temperature  
< 15 °C

Day temperature  
10-30 °C

Night temperature  
12-18 °C

Temperature max:  
35 °C

Temperature min:  
15 °C

Soil type:  
peat

Repotting:  
after 2 years
