

Venus flytrap 'Dionaea muscipula 'Hot kiss' (CarniVFT37) Dionaea muscipula 'Hot kiss'

€ 0.00

The *Dionaea muscipula* 'Hot Kiss' is a most tempting and unique Venus fly-trap mutant: the traps look like lips alluring to both people and insects. The traps are so to speak turned inside out and can therefore no longer be closed. Replacing them are sensational lip-shaped traps. The colour of the lips at the growing point is green or light-red, but it can develop into flaming-red: the *Dionaea muscipula* 'Hot Kiss' is an unforgettable 'hot' Venus fly-trap. At the moment this *Dionaea muscipula* 'Hot Kiss' is not yet being sold by Araflora. It is possible to place a pre-order for the *Dionaea muscipula* 'Hot Kiss' while it is still out of stock in order to be able to have this unique Venus fly-trap at home at a later date. As soon as sufficient numbers of *Dionaea muscipula* 'Hot Kiss' have been cultivated you will receive an automatic message. The exact timing cannot be estimated as it can take 1 to 2 years before Araflora has enough of these plants for its plant lovers.

Plant type:

carnivorous

Place:

indoor

Adult width:

10 cm
