### Product info

If you wish to see Alocasia infernalis 'Black magic' in nature, you must travel to for example Borneo or Malaysia in South-East Asia. The species' name 'Infernalis' 'Hellish' probably refers to the reddish shine of the almost black leaf. This species is also known as the 'Skeleton plant' due to the striking veins on its dark leaf. The species does excellent in both a tropical terrarium and any living room.

## Plantcare

Alocasia infernalis is suited for terrarium or as an exotic house plant. Ideal temperatures are between 20 and 30 degrees Celsius. It can be colder, but the growth will be more compact. The skeleton plant Alocasia infernalis likes a lot of water and high humidity. We advise: water plentifully, mist or spray from time to time and give it some liquid plant nutrition every now and then. Pick a bright spot, or one in partial shade. The symbols below provide additional information about the care of Alocasia infernalis.
