

## Stephania erecta (SuCa292)

Stephania erecta

€ 9.00

The round leaves may remind you of the *Pilea peperomioides*, but don't be fooled: this is the *Stephania erecta*! This caudexplant normally grows against trees in countries like Thailand and Australia. But we're sure the *Stephania erecta* will fit perfectly in your urban jungle as well!

indoor	40 cm	full light	normal	limited

### Product info

The *Stephania erecta* is a tropical caudexplant. It originally grows in Thailand and Australia and thrives under high humidity. The plant has beautiful, round leaves with subtle light green veins. The round leaves show a lot of similarities to the leaves of the *Pilea peperomioides*.

<b>Properties:</b> special		<b>Growth rate:</b> normal	
<b>Araflora info:</b> limited		<b>Natural habitat:</b> South America	
<b>Altitude range:</b> 0-1000 m			

## Plantcare

Be careful when watering the plant. The caudex of the *Stephania* easily stores water and nutrients so it won't be needing too much water. Just make sure the soil doesn't dry out completely in between watering. The *Stephania erecta* thrives in a light room. Important to note: the *Stephania erecta* goes dormant during winter. So, don't be alarmed when some of the leaves fall off. Give the plant some rest and start giving it some more water once spring comes back around.

Care:  
easy

Place:  
indoor

Place:  
container plant

Light:  
full light

Light:  
semi sun

Fertilize:  
medium
