

## Monstera siltepecana B (Ariods160b)

Monstera siltepecana B

€ 38.15

Monstera siltepecana B is a small-leaved climbing Monstera. The gray-green leaves are lance-shaped with dark green veins. Because this plant climbs naturally, it will grow upwards on a stick or pole. Letting the plant climb the leaves will grow bigger and create holes in the leaves. A must have for your Monstera collection!

Plant type:

foliage plant

Place:

indoor

Adult width:

<15 cm

Light:

no direct sun

Watering:

normal
