

Antplant 'Hydnophytum perangustum' (Antp24e) Hydnophytum puffii formerly perangustum antplant (XL)

€ 76.30

Hydnophytum puffii formerly perangustum 'Needle leaf' is a plant which, in natural surroundings, provides ants with shelter in its caudex (or broadened stem). Hydnophytum perangustum can, like other ant plants, do just fine without ants living around it. The leaf of this reasonably small species is acicular (needle-shaped).

Plant type:

plant

Place:

indoor

Adult width:

75 cm

Light:

full light

Watering:

normal

Araflora info

non-edible

Product info

Hydnophytum perangustum is originally found on Borneo. It is an epiphytic species (grows in trees). Compared to other kinds of hydnophytum it grows slowly. The leaves are narrow (even acicular) and the caudex is rough to the touch

Height:

65 cm

Width:

40 cm

Adult height:

< 5 cm

Adult width:

75 cm

Flower colour:

white

Flower period:

all year

Product:

plant

Plant type:

plant

Plant type:

antplant

Growth habit:

epiphytical

Growth rate:

slow

Araflora info:

non-edible

Araflora info:

special

Natural habitat:

South-East Asia

Altitude range:

500-1000 m

Plantcare

Place *Hydnophytum perangustum* in warmth, high humidity and in a spot with lots of (indirect) light. Also ensure this ant plant enjoys sufficient air circulation when placing it in a terrarium. Though the exotic ant plant does well at temperatures between 15 and 20 degrees Celsius, the ideal temperatures are higher: between 20 and 30 degrees. Use a mix for orchids to pot the ant plant or tie it to a piece of bark.

Care: easy		Place: indoor	
Place: artificial lighting		Light: full light	
Light: semi sun		Artificial light height: 20-40 cm	
Fertilize: little		Maintenance: can be pruned	
Watering: normal		Watering tips: free draining mixture	
Watering tips: not standing in water		Watering tips: water spraying	
Soil type: antplant		Air humidity at day: 60-80%	
Air humidity at night: 80-100%		Air movement: normal	
Temperature < 15 °C		Day temperature 20-30 °C	
Night temperature 12-18 °C		Temperature max: 35 °C	
Temperature min: 10 °C		Soil ph: < 6-7 >	
Soil type: peat/cocos		Repotting: after 2 years
