Product info

The Philodendron gloriosum has glossy-green leaves with distinctive yellow veins. This green house plant thrives in office or living room. The plant is native to Columbia and various other countries. The leaves grow in a rolled-up shape, which finally unrolls into a large leaf. Araflora sells various types of green plants for home and office.

Plant type: cameleon		Growth habit: normal	
Properties: non-edible		Growth rate: slow	
Araflora info: botanical		Natural habitat: Amazon	
Altitude range: 500-1000 m			

Plantcare

The Philodendron gloriosum does well in a spot in the shade or half shadow. The Philodendron gloriosum plants like a moist soil but dislike 'wet feet'. So place the plant in a container with some permeable soil and take care any surplus water can drain through the bottom of the container. A temperature above 12°Celsius [53.6F] is good enough for the Philodendron gloriosum.
