Height: 80 cm		Width: 15 cm	
Adult height: <50 cm		Adult width: <15 cm	
Flower colour: white		Flower period: all year	
Product: plant		Plant type: foliage plant	
Growth habit: normal		Properties: non-edible	
Growth rate: slow		Araflora info: botanical	
Natural habitat: South-East Asia		Altitude range: 0-1500 m	

Plantcare

Put *Alocasia 'Dragon tail'* in an intermediate or warm, high humidity environment. Temperatures below 16 degrees Celsius are tolerated but are not optimal for ideal growth. In nature, this plant grows as a terrestrial plant in the hot and humid forests of Southeast Asia and so does not require high light conditions. Bright shade or bright indirect light is most optimal, try to avoid direct sunlight. This plant grows best in organic fast draining soil, specialized anthurium soils or similar works best. Do not let this plant dry out completely but prevent the soil from getting soggy. Fertilize this plant with green plant fertilizer at half the strength in growing season.

Care: very easy		Place: indoor	
Place: artificial lighting		Light: no direct sun	
Light: semi sun		Artificial light height: 20-40 cm	
Fertilize: little		Maintenance: no-pruning	
Watering: normal		Watering tips: free draining mixture	
Air humidity at day: 80-100%		Air humidity at night: 60-80%	
Temperature < 15 °C		Day temperature 10-30 °C	
Night temperature 12-18 °C		Temperature max: 35 °C	
Temperature min: 15 °C		Soil ph: < 5-8 >	
Soil type: peat		Repotting: after 2 years
