0-1000 m

Plantcare

The *Masdevallia sprucei* is best kept in a bright room, but don't put in direct sunlight. The ideal temperature for this orchid lies around 13 to 26 degrees Celsius. If the plant is put in rooms above 30 degrees Celsius, you will soon see the plant starts to weaken and the leaves will begin to drop. It's best to let the soil dry out before watering the orchid again. Also be sure to keep the *Masdevallia* moist by using a plantspray, especially during the summer.
