

Philodendron camposportoanum (Aroid242)

Philodendron camposportoanum

€ 35.00

Superficially similar to Philodendron anisostomum, this Philodendron camposportoanum has thinner stems, giving it a more refined appearance when mature. Give this Philodendron it a long moss pole to run, it will need it. Known from around 1000-1500 meters altitude in South America, this Philodendron camposportoanum will need some extra humidity especially on hot days.

Plant type:

evergreen

foliage plant

Place:

indoor

Adult width:

Light:

semi sun

Watering:

normal
