

Philodendron gloriosum 'Starter' (Aroid)

Philodendron gloriosum 'Starter';

€ 20.18

It is all in the name: gloriosum. Because it is! The texture and way the light plays on the leaf's surface of this Philodendron gloriosum, it can only be compared to a Jewel orchid. This is one of the few terrestrial and non-climbing Philodendron, it will need an open shallow pot for its stems to run on the surface. Needs a bit of extra air humidity, but with leaves like that, all sacrifices are reasonable.

Plant type:

foliage plant

Place:

indoor

Adult width:

<40 cm

botanical

Product info

The Philodendron gloriosum has glossy-green leaves with distinctive yellow veins. This green house plant thrives in office or living room. The plant is native to Columbia and various other countries. The leaves grow in a rolled-up shape, which finally unrolls into a large leaf. Araflora sells various types of green plants for home and office.

Natural habitat:

Amazon

Altitude range:

500-1000 m

Plantcare

The Philodendron gloriosum does well in a spot in the shade or half shadow. The Philodendron gloriosum plants like a moist soil but dislike 'wet feet'. So place the plant in a container with some permeable soil and take care any surplus water can drain through the bottom of the container. A temperature above 12°Celsius [53.6F] is good enough for the Philodendron gloriosum.
